4 Areas (Identified by Consultants For Meeting Focus):

Learning:

Writing Samples/Collaborative Scoring- [Reeves](#)

Writing Samples From ELA and Science-scored as individuals and discussed as a group.

There were 2 ELA examples and 2 Science examples of student writing. We used the "Criteria for Success" as developed with Aminata.

Sample Anchor Charts from North- in BLT Shared Drive

Next Steps:

- Anchor Chart Creation- in TBT's to do from now to May- to provide clarification
- Graphic Organizers (Teresa Castellaneta) To support writing, provide a guide in content areas(attached)
- Perhaps a common prompt in content areas
- Each content uses their own rubric(?)- scoring the way that you have been, when you bring to BLT, bring how/what you are using to score so that we can score them together.
- Table Scoring Collaboratively till next time

Discussion: Is the writing/rubric in support or in spite of content?

- If students knew they had to include certain items- we could score looking at the content, etc. when we bring them to BLT

For next year, we need to prioritize initiatives and stick to them.

Reminder:

Learning Walk #3-Looking at Questioning(DOK levels)- schedule in depts.
